CURL-LOADER THANKS

Thanks to the creators and maintainers of the packages, that we are using, namely:
- libcurl (Daniel Stenberg) for the HTTP 1.1, FTP, telnet, ldap, etc client stacks;
- openssl for the TLS/SSL stack;
- libevent (Niels Provos) for the I/O event demultiplexing framework;
- iprouted2 for the netlink and linux TCP/IP kernel (Alexey Kuznetsov and others).
